## TECHNOLOGY STRATEGY | CYBERSECURITY | ENTERPRISE TRANSFORMATION | MBA (FINANCE & MIS)

9/66 Charan Sanit Wong Rd, Bang O, Bang Phlat, Bangkok 10700

Email: saksit.jantila@gmail.com | Tel: +66874304719

### SUMMARY

My career has equipped me with adaptability, resilience, and strong problem-solving capabilities through enterprise technology and cybersecurity projects across government and financial-sector organizations. I am passionate about technology innovation, AI, cybersecurity, and continuous learning, with strong interest in business transformation and strategic technology initiatives. Currently pursuing an MBA in Finance and MIS at NIDA to further strengthen my business, financial, and strategic management capabilities.

### PROFESSIONAL EXPERIENCE

#### Sr. Account Engineer - Cybersecurity, at AIT

Apr 2024 - Present

- Led cybersecurity transformation initiatives for enterprise and government-sector clients by coordinating stakeholders, partners, and technical teams to deliver strategic security solutions, including SIEM, SOAR, and SOC-as-a-Service.
- Advised clients on cybersecurity governance, risk management, and compliance alignment based on NIST, ISO 27001, and NCSA frameworks to strengthen organizational security posture and operational resilience.
- Designed and optimized SOC operational workflows and service processes, improving incident response coordination and enhancing managed security service quality.
- Collaborated with enterprise stakeholders to align cybersecurity initiatives with organizational objectives, operational requirements, and long-term technology strategies.
- Supported strategic discussions and solution planning for digital infrastructure modernization and cyber resilience initiatives.

#### Sr. Account Engineer - Government, at AIT

Apr 2019 - Apr 2024

- Managed enterprise network and cybersecurity projects for major government and public-sector organizations, supporting digital transformation and infrastructure modernization initiatives.
- Led implementation and enhancement of Software Defined Network (SDN) and enterprise security solutions to improve scalability, operational efficiency, and system resilience.
- Coordinated with cross-functional stakeholders, technology partners, and client management teams to deliver complex technology projects aligned with business and operational goals.
- Provided strategic technical consultation for enterprise security architecture, network segmentation, endpoint protection, and infrastructure risk mitigation.
- Contributed to large-scale technology initiatives for organizations including DGA, NSTDA, Ministry of Finance, and other national agencies.

#### Outsource Engineer, at Advanced Information Technology PCL. (AIT)

Oct 2016 - Apr 2019

- Supported implementation and maintenance of enterprise network and security infrastructure for government-sector clients.
- Managed SLA-based support services to ensure operational continuity and service reliability.
- Provided technical troubleshooting and infrastructure support that contributed to improved system stability and reduced operational disruptions.

## HARD SKILLS

---

- Technology Strategy & Planning
- Cybersecurity Governance
- SOC & MSSP Operations
- Cloud & Network Security
- Enterprise Transformation
- Cross-Functional Collaboration
- IT Governance & Compliance
- Digital Infrastructure Transformation (SDN)
- AI & Technology Innovation
- Risk & Compliance
- Project & Program Management

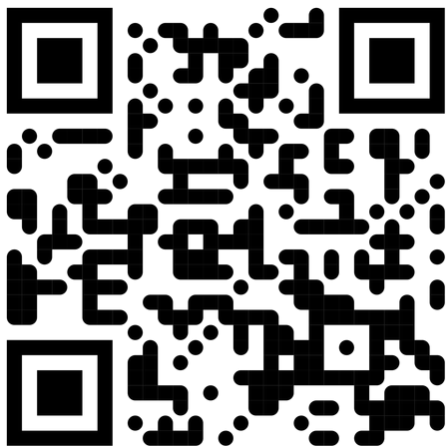

## PERSONALITY SKILLS

---

- Strategic & Critical Thinking
- Problem Solving & Analytical Mindset
- Leadership & Stakeholder Coordination
- Communication & Active Listening
- Adaptability & Learning Agility
- Creative & Innovative Thinking
- Cross-Functional Collaboration
- Resilience Under Pressure

## AI & TECHNOLOGY PORTFOLIO
