SUMMARY

My career has equipped me with adaptability, resilience, and strong problem-solving capabilities through enterprise technology and cybersecurity projects across government and financial-sector organizations. I am passionate about technology innovation, AI, cybersecurity, and continuous learning, with a strong interest in business transformation and strategic technology initiatives. Graduated with an MBA in Finance and MIS at NIDA to further strengthen my business, financial, and strategic management capabilities.

PROFESSIONAL EXPERIENCE

Senior Cybersecurity Consultant (Pre-sales), at AIT

July 2026 - Present

- Cybersecurity Consulting and Solution Advisory prepared the technology proposal and Proof of Value (POV) for IT Security, Cloud Security, XDR, SIEM, SOAR, SOC, and MSSP, also developing the Bill of Materials (BOM) for accurate budgeting.
- Emerging Technology Enabler showcased AI defense and Post-Quantum Cryptography (PQC) with various vendors, highlighting security advancements.
- Applied Governance, Risk, and Compliance frameworks, including NIST, ISO 27001, and CRAF, to strengthen security controls and organizational resilience.
- Security Architecture and Solution Design focused on stakeholder engagement and aligning with business needs for effective security strategies.

Sr. Account Engineer - Cybersecurity, at AIT

Apr 2024 - July 2026

- Led cybersecurity transformation initiatives for enterprise and government clients, delivering strategic solutions including XDR, SIEM, SOAR, and SOC-as-a-Service.
- Advised clients on cybersecurity governance, risk management, and compliance aligned with NIST, ISO 27001, and NCSA frameworks.
- Optimized SOC workflows and service processes to improve incident response and managed security service quality.
- Aligned cybersecurity initiatives with business objectives, digital infrastructure modernization, and cyber resilience strategies.

Sr. Account Engineer - Government, at AIT

Apr 2019 - Apr 2024

- Managed enterprise network and cybersecurity projects for government and public-sector organizations, supporting digital transformation and infrastructure modernization.
- Delivered SDN, enterprise security, network segmentation, endpoint protection, and risk-mitigation solutions to improve scalability, efficiency, and resilience.
- Coordinated stakeholders, technology partners, and client management teams to deliver projects aligned with business goals.
- Provided strategic technical consultation and contributed to major initiatives for DGA, NSTDA, Ministry of Finance, and other national agencies.

Outsource Engineer, at Advanced Information Technology PCL. (AIT)

Oct 2016 - Apr 2019

- Supported implementation and maintenance of enterprise network and security infrastructure for government-sector clients.
- Managed SLA-based support services to ensure operational continuity and service reliability.
- Provided technical troubleshooting and infrastructure support that contributed to improved system stability and reduced operational disruptions.

EDUCATION

Master's Degree from Business Administration - GPA: 3.68 National Institute of Development Administration (NIDA) Major: Finance and Management Information Systems (MIS)	2024 - 2026
Master's Degree from Computer Engineering - GPA: 3.50 Khon Kaen University (KKU) - Software-defined networking and IT security research. - Publishing a journal article titled "A Security Analysis of a Hybrid Mechanism to Defend DDoS Attacks" at IEEECON 2016.	2014 - 2016
Bachelor's Degree from Computer Engineering - GPA: 3.21 Khon Kaen University (KKU) - Completed coursework centered on Network and Signaling Communication. - Engaged in relevant studies emphasizing Software Development.	2010 - 2014

ADDITIONAL INFORMATION

Languages

- Thai (Native), English (Professional Working Proficiency)

Professional Certifications

- CISSP, ISO 27001 Lead Implementer, CEH, CCNP Enterprise, CCNP Security, FCP, PCNSE
- PMI-ACP, CySA+, SAL1
- Investment Consultant (IC) License
- AI Solutions on Cisco Infrastructure Essentials

Leadership & Professional Activities

- Great Employee of the Year (2024)
- AI Literacy Instructor
- CSAI Development Team Member
- Welfare Committee Member
- ISO/IEC 27001 Internal Audit Team Member

PROJECTS

Senior Cybersecurity Consultant (Pre-sales) - National Cyber Security Agency (NCSA) - SME Development Bank - Social Security Office (SSO) - Ministry of Finance (MOF)	2026-Present
Sr. Account Engineer - Cybersecurity - The Secretariat of the House of Representatives (Thai Parliament) - Bank of Thailand (BOT) - Department of Lands (DOL) - Geo-Informatics and Space Technology Development Agency (GISTDA)	2024-2026
Sr.Account Engineer - Government - Digital Government Development Agency (Public Organization) (DGA) - National Science and Technology Development Agency (NSTDA) - Deposit Protection Agency (DPA) - The Government Lottery Office (GLO) - Thai Red Cross Society (TRCS) - King Chulalongkorn Memorial Hospital (KCMH) - Metropolitan Waterworks Authority (MWA)	2019-2024
Outsource Engineer Department of Provincial Administrator (DOPA)	2016-2019

HARD SKILLS

- Technology Strategy & Planning
- Cybersecurity Governance
- SOC & MSSP Operations
- Cloud & Network Security
- Enterprise Transformation
- Cross-Functional Collaboration
- IT Governance & Compliance
- Digital Infrastructure Transformation (SDN)
- AI & Technology Innovation
- Risk & Compliance
- Project & Program Management

PERSONALITY SKILLS

- Strategic & Critical Thinking
- Problem Solving & Analytical Mindset
- Leadership & Stakeholder Coordination
- Communication & Active Listening
- Adaptability & Learning Agility
- Creative & Innovative Thinking
- Cross-Functional Collaboration
- Resilience Under Pressure
